MUUTO

New Nordic

The **NERD CHAIR** is a very unique and characterful interpretation of an all-wood chair. Through an innovative integration between seat and back and precise detailing, Nerd has gotten an iconic personality with strong references to classic Scandinavian design values.

by
THE LEADING
SCANDINAVIAN
DESIGNERS

We are striving to expand the strong Scandinavian design tradition with new and original perspectives. In fact, our name **MUUTO**, inspired by the Finnish word muutos, means new perspective.

To us good design starts with the person. We handpick the brightest design talent and the leading contemporary designers in Scandinavia and give them the freedom to express their individual story through everyday objects. Some want to alter the world, others find passion in colour and shape and others still, draw deeply from personal experience. How do they see a vase, a lamp, a chair or any other everyday object?

You will know our design because it has muutos. Objects made sublime through new perspectives, enjoyed across the world, representing the best of Scandinavian design today.

An honest and aesthetic candlestick that through its simple design perfectly unites two basic functions – bringing light and the ease of moving it.

PUSH COFFEEMAKER

PUSH COFFEEMAKER / Mette Duedahl p. 52

PUSH puts a new perspective on coffee making – pushing coffee drinking to a higher level. The soft and pleasant feel of the stoneware is reflected in the rounded, smooth shape of the jug. PUSH is a characteristic coffee maker with a contemporary Nordic design, which is both soft to look at and soft to hold.

ELEVATED VASE

ELEVATED VASE / Thomas Bentzen p. 53

The ELEVATED vase is about doing something exceptional for your flowers.

The wooden bowl holding the glass vase elevates the flowers, almost ritually, and frames them in a new poetic way.
